Rosh Pinah Zinc Corporation

We are innovators in our space with a driving purpose to be the world's best sustainable underground mining company. We live our values of Teamwork, Respect, Performance, and Care, and we embody them through our work, actions, and behaviours.

Rosh Pinah Mine is an underground zinc-lead mine and a 2000-tonne-per-day milling operation located in southwestern Namibia, approximately 800 km south of Windhoek and 20 km north of the Orange River, at the edge of the Namib Desert. The Rosh Pinah Mine is taking the next exciting step to modernize and digitize our underground working environment. An exciting career awaits people that want to be part of how we will shape the future of underground mining in Namibia. We have begun the implementation of disruptive technologies that will enable us in putting together integrated mining plans with precision execution for our underground mine, and this is just the beginning, with many more innovative initiatives to come!
